SUBJECT INDEX

ACTH
Effects of ACTH and cortisol on luteolysis in the ewe 201
Artificial insemination
Optimal insemination interval, semen dose and dilution for optimum fertility in chickens under humid tropical conditions 179
Cattle
Regulation of plasminogen activator secretion in Sertoli cells of the calf testis 1
Regulation of transferrin secretion in Sertoli cells of the calf testis 11
Modulation of uterine prostaglandin biosynthesis by pregnant and nonpregnant cows at day 17 post-estrus in response to in vivo and in vitro heat stress 31
Lipid peroxidation in testis and epididymis of the bull 83
Serum inhibin, FSH, LH and testosterone levels and testicular inhibin content in beef bulls from birth to puberty 165
Composition and characteristics of follicular waves during the bovine estrous cycle 187
Chicken
Optimal insemination interval, semen dose and dilution for optimum fertility under humid tropical conditions 179
Corpus luteum
Ultrasonic echogenicity of developing corpora lutea in pony mares 143
Effect of intraluteal estradiol-17β implants on weight and progesterone secretion of porcine corpora lutea 221
Cortisol
Effects of ACTH and cortisol on luteolysis in the ewe 201
Embryo development
Effects of unilateral ovariectomy on reproductive traits of mice 49
Embryonic development measured by ultrasonography and plasma progesterone concentrations in roe deer (*Capreolus capreolus* L.) 155
Morphological scoring system for porcine (12 to 19 days old) embryonic development in vitro 299
Endometrium
Interrelationships of proteins secreted by the ovine conceptus and endometrium during the periattachment period 117
Epididymis
Lipid peroxidation in testis and epididymis of the bull 83
Feeding and nutrition
The effect of planes of nutrition on growth and attainment of puberty in female wild boars raised in captivity 71
Influence of energy and protein intake on the reproductive performance of the breeding boar: a review 103
Effect of feeding level on semen quantity and quality of breeding boars 245
Follicle
Composition and characteristics of follicular waves during the bovine estrous cycle 187
Follicular fluid
Ultrasonic characterization of follicular evacuation during ovulation and fate of the discharged follicular fluid in mares 131
FSH
Influence of sexual receptivity on LH, FSH and prolactin release after GnRH administration in female rabbits 57

Puberty in the male Nubian goat: serum concentrations of LH, FSH and testosterone from birth through puberty and semen characteristics at sexual maturity 91
Serum inhibin, FSH, LH and testosterone levels and testicular inhibin content in beef bulls from birth to puberty 165
GnRH
Influence of sexual receptivity on LH, FSH and prolactin release after GnRH administration in female rabbits 57
Goat
Puberty in the male Nubian goat: serum concentrations of LH, FSH and testosterone from birth through puberty and semen characteristics at sexual maturity 91
Reproductive performance of African indigenous small ruminants under various management systems: a review 265
Horse
Ultrasonic characterization of follicular evacuation during ovulation and fate of the discharged follicular fluid 131
Ultrasonic echogenicity of developing corpora lutea 143
Pregnancy loss 231
Inhibin
Serum inhibin, FSH, LH and testosterone levels and testicular inhibin content in beef bulls from birth to puberty 165
LH
Influence of sexual receptivity on LH, FSH and prolactin release after GnRH administration in female rabbits 57
Puberty in the male Nubian goat: serum concentrations of LH, FSH and testosterone from birth through puberty and semen characteristics at sexual maturity 91
Serum inhibin, FSH, LH and testosterone levels and testicular inhibin content in beef bulls from birth to puberty 165
Lipid peroxidation
Lipid peroxidation in testis and epididymis of the bull 83
Luteolysis
Effects of ACTH and cortisol on luteolysis in the ewe 201
Mouse
Effects of unilateral ovariectomy on reproductive traits 49
Oestradiol-17β
Effect of intraluteal estradiol-17β implants on weight and progesterone secretion of porcine corpora lutea 221
Oestrogens
Relaxin, progesterone and estrogen profiles in sow plasma during natural and induced parturitions 213
Oestrus
Composition and characteristics of follicular waves during the bovine estrous cycle 187
Effect of dose of pregnant mare serum gonadotrophin on estrus parameters, ovulation rate and peripheral progesterone concentrations in Yankasa ewes 255
Changes in plasma gonadotropins, ovarian steroids and inhibin concentrations in gilts following progesterone treatment with implantable osmotic pumps 287
Ovariectomy
Effects of unilateral ovariectomy on reproductive traits of mice 49
Ovulation
Effects of unilateral ovariectomy on reproductive traits of mice 49
Ultrasonic characterization of follicular evacuation during ovulation and fate of the discharged follicular fluid in mares 131

Effect of dose of pregnant mare serum gonadotrophin on estrus parameters, ovulation rate and peripheral progesterone concentrations in Yankasa ewes 255
Parturition
Relaxin, progesterone and estrogen profiles in sow plasma during natural and induced parturitions 213
Pig
Effect of relaxin and antirelaxin serum on porcine sperm motility 21
The influence of energy and protein intake on the reproductive performance of the breeding boar: a review 103
Relaxin, progesterone and estrogen profiles in sow plasma during natural and induced parturitions 213
Effect of intraluteal estradiol-17β implants on weight and progesterone secretion of porcine corpora lutea 221
The effect of feeding level on semen quantity and quality of breeding boars 245
Changes in plasma gonadotropins, ovarian steroids and inhibin concentrations in gilts following progesterone treatment with implantable osmotic pumps 287
Morphological scoring system for porcine (12 to 19 days old) embryonic development in vitro 299
Plasminogen activator
Regulation of secretion in Sertoli cells of the calf testis 1
PMSG
Effect of dose of pregnant mare serum gonadotrophin on estrus parameters, ovulation rate and peripheral progesterone concentrations in Yankasa ewes 255
Pregnancy loss
Pregnancy loss in the mare 231
Progesterone
Embryonic development measured by ultrasonography and plasma progesterone concentrations in roe deer (*Capreolus capreolus* L.) 155
Relaxin, progesterone and estrogen profiles in sow plasma during natural and induced parturitions 213
Effect of intraluteal estradiol-17β implants on weight and progesterone secretion of porcine corpora lutea 221
Effect of dose of pregnant mare serum gonadotrophin on estrus parameters, ovulation rate and peripheral progesterone concentrations in Yankasa ewes 255
Changes in plasma gonadotropins, ovarian steroids and inhibin concentrations in gilts following progesterone treatment with implantable osmotic pumps 287
Prolactin
Influence of sexual receptivity on LH, FSH and prolactin release after GnRH administration in female rabbits 57
Prostaglandins
Modulation of uterine prostaglandin biosynthesis by pregnant and nonpregnant cows at day 17 post-estrus in response to in vivo and in vitro heat stress 31
Rabbit
Influence of sexual receptivity on LH, FSH and prolactin release after GnRH administration in female rabbits 57
Relaxin
Effect of relaxin and antirelaxin serum on porcine sperm motility 21
Relaxin, progesterone and estrogen profiles in sow plasma during natural and induced parturitions 213
Roe deer
Embryonic development measured by ultrasonography and plasma progesterone concentrations 155

Semen
Puberty in the male Nubian goat: serum concentrations of LH, FSH and testosterone from birth through puberty and semen characteristics at sexual maturity 91
Effect of feeding level on semen quantity and quality of breeding boars 245
Sertoli cells
Regulation of plasminogen activator secretion in Sertoli cells of the calf testis 1
Regulation of transferrin secretion in Sertoli cells of the calf testis 11
Sheep
Studies on the age of puberty of Najdi rams 67
Interrelationships of proteins secreted by the ovine conceptus and endometrium during the periattachment period 117
Effects of ACTH and cortisol on luteolysis in the ewe 201
Reproductive performance of African indigenous small ruminants under various mangement systems: a review 265
Sperm motility
Effect or relaxin and antirelaxin serum on porcine sperm motility 21
Stress
Modulation of uterine prostaglandin biosynthesis by pregnant and nonpregnant cows at day 17 post-estrus in response to in vivo and in vitro heat stress 31
Testis
Regulation of plasminogen activator secretion in Sertoli cells of the calf testis 1
Regulation of transferrin secretion in Sertoli cells of the calf testis 11
Lipid peroxidation in testis and epididymis of the bull 83
Testosterone
Puberty in the male Nubian goat: serum concentrations of LH, FSH and testosterone from birth through puberty and semen characteristics at sexual maturity 91
Serum inhibin, FSH, LH and testosterone levels and testicular inhibin content in beef bulls from birth to puberty 165
Transferrin
Regulation of transferrin secretion in Sertoli cells of the calf testis 11
Trophoblast
Interrelationships of proteins secreted by the ovine conceptus and endometrium during the periattachment period 117
Ultrasonography
Ultrasonic characterization of follicular evacuation during ovulation and fate of the discharged follicular fluid in mares 131
Ultrasonic echogenicity of developing corpora lutea in pony mares 143
Embryonic development measured by ultrasonography and plasma progesterone concentrations in roe deer (*Capreolus capreolus* L.) 155
Wild boar
The effect of planes of nutrition on growth and attainment of puberty in female wild boars raised in captivity 71
